• Hindi

• English

## EXPERIENCE

### COGNIZANT | FULLSTACK ENGINEER

Feb 2022 – Present | Pune

- Currently working with Life Science project of company Abbvie. Contributing proactively as Fullstack developer.
- Contributing in infrastructure code of project using AWS CDK with typescript.
- Worked with Japan's Metlife Insurance Company as a Frontend Engineer, handle their various search options and users holding details.

### TATA CONSULTANCY SERVICES | FRONTEND ENGINEER

July 2018 – Feb 2022 | Mumbai

- Developed reusable components with internal team of client to use across multiple teams.
- We had used Adobe Analytics event trigger to account the users click and reachability, which was increased by 54%.
- Implemented a mobile first approach to existing website and Developed Progressive web app(PWA) with React.js. part of client POC. I have used service worker for push notification and offline caching.

## PROJECTS

### PHARMACYCLICS | WEB APPLICATION | REACTJS | NODEJS | |

TYPESCRIPT | LAMBDA FUNCTIONS | AWS CDK

July 2023 – Present

- We are using ReactJs as frontend and NodeJs Lambda functions for backend, S3, cloudfront, Step functions, Sqs, cloudformation are majorly used services for rest API development with lambda.
- CDK exposed more services and security features association with API's, buckets, cloudfront.

### INSURANCE ENQUIRY APPLICATIONS | WEB APPLICATION |

REACTJS | REDUXTOOLKIT | JEST | SINGLE SPA

January 2022 – April 2023

- Developed various search options and users holding details.
- Our frontend application consumes Java Rest API's, closely worked with Adobe XD designs
- We have used Redux Saga as data layer, Jest for unit test cases. Approached accessibility with HTML5 semantic tags.

### INVESTMENT SEARCH TOOL | WEB APPLICATION | VUEJS | AGILE

January 2020 – December 2021

- Led the migration process, including code refactoring and UI redesign, ensuring seamless transition from AngularJs to VueJs by enhancing investment workflow .
- Developed bank's legacy Portfolio screens for direct users to sell, buy or switch their instruments(Fund, stock, ETFs etc.) and search instruments effectively.
- Collaborated with stakeholders to understand business requirements and align the application functionalities accordingly.
